Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Various issues were discussed, including the definition of "Out of Band Command" and the use of target path vs. selected path vs. path-specific operations vs. virtual channels. Several potential amendments were discussed including the definition of "out of band", clarification of the system and band structure, the addition of a step clarifying the evaluation and selection process, and clarifying the step of evaluating the target path and choosing that or a select path using a structure separate from that which chose a target path. Attorney agreed to submit an RCE.
